

BROKER SPOTLIGHT

Close ~ Converse Properties

Close ~ Converse Properties is uniquely suited to help recreational property buyers in northern Minnesota, reflected by the fact that broker Rod Osterloh has received the prestigious Accredited Land Consultant (ALC) designation from the Realtors Land Institute.

The brokerage has been helping land buyers for more than 30 years, and to Osterloh, the ALC designation reflects how Close ~ Converse’s land division has kept up with the times and the evolving needs of buyers.

“It’s important to keep up with technology and make sure you are using it to make the buying experience efficient,” said Rod, who works with his wife Jody and assistant Tanya Digiovanni in the brokerage’s land division. “But it’s also important to have experience and knowledge. In that regard, being involved in the Realtors Land Institute is important for us, because it helps us share information with many of the nation’s top recreational real estate brokers.”

Close ~ Converse specializes in the northern Minnesota area, focusing on areas near towns including Bemidji, Grand Rapids, Park Rapids, Wadena, Brainerd, Baxter, Walker and Aitkin. The brokerage sells tracts anywhere from 10 to 10,000 acres, but many northern Minnesota recreational buyers want to buy very affordable 40 to 80 acre tracts.

So many factors go into a recreational land purchase, from considering the value of the timber on a property to determining how the property rates as a hunting and recreational spot. To Rod, nothing is a substitute for experience in finding the answers.

“The value in a property may be the quality of deer, or the quality may be in how the land is good for growing trees,” he said. “We have done hundreds of land transactions at Close ~ Converse over the years, and in doing that, we have become experts in knowing how to determine values of recreational property.”

Close ~ Converse has been doing business with PotlatchDeltic since 2005, and PotlatchDeltic’s timber properties are a good fit for many of the brokerage’s buyers.

“We are finding that more people want to consider both the value of the land and of the timber on it,” Rod said. “PotlatchDeltic properties provide that, along with tremendous recreational opportunities.”
